

FLEET SERVICES

PREVENTIVE MAINTENANCE SCHEDULING AND COMPLIANCE MANAGEMENT

100% fleet compliance is the gold standard for fleet management. We understand this can be an overwhelming challenge. Let us help by leveraging our preventive maintenance solutions for inspection compliance. Access to information through Altec's customer portal is available for both your Altec and non-Altec fleet equipment.

Altec understands that preventive maintenance and OSHA/ANSI/DOT required inspection compliance is one of the most critical challenges fleet managers face.

Fortunately, we have a solution. Altec's Fleet Services' asset inspection management program includes annual ANSI unit inspections, dielectric testing, chassis PM and DOT inspections and chassis oil changes.

BENEFITS INCLUDE:

- » Complete preventive maintenance compliance ensures fleet requirements are met for DOT, annual PM inspections, dielectric tests and more
- » Scheduling and tracking of all inspections through your preferred vendor network
- » Easily add your preferred vendors at no cost to you or the vendor
- » Upfitted equipment inspections performed by Altec to the OEM standards
- » Fleet summary reports by VMRS code down to an individual asset level to determine monthly and annual spend
- » PM service reporting and inspection forms are available on Altec's customer portal
- » Customized and consolidated billing options
- » Available on a per-incident or monthly subscription basis

To best take advantage of Altec's fleet management solutions combine Altec's Fleet Services PM Compliance Program and Breakdown Support.

FULLY CUSTOMIZABLE ASSET INSPECTION MANAGEMENT

ANNUAL ANSI UNIT INSPECTIONS

DIELECTRIC TESTING

CHASSIS PM AND DOT INSPECTIONS
