

Custom Ground and Jumper Sets

Altec Supply stocks a variety of clamps from core manufacturers. We have the experience and expertise to safely assemble grounds and jumpers for any of your work applications. Each assembly comes with heat shrink on each end of the cable which contributes to making your grounds and jumpers highly durable. The point where the ferrule is crimped to the cable is strengthened and protects it from moisture.

- We assemble in our warehouses
- Tested for resistance value and date stamped
- Stocking the components needed to build them

CUSTOMIZE YOUR GROUND AND JUMPER SETS

We can build jumpers and grounds for any work application including overhead, underground, truck ground, substations and more. Below are 3 things about your ground and jumper needs that we will ask.

1. Select Your Cable Size

Our ground and jumper cable sizes vary from the smallest to the largest #2, 1/0, 2/0 and 4/0.

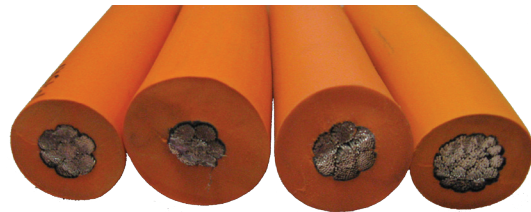

For Grounds:

- Cable sizes #2, 1/0, 2/0, and 4/0 are offered in Yellow 600V ground cable
- Clear cable available upon request

For Jumpers:

- 15 kV is offered in all cable sizes #2, 1/0, 2/0, 4/0
- 25 kV is offered in 1/0 and 2/0
- 35 kV is only offered in 1/0

2. Select Your Cable Length

Custom cable lengths could vary greatly – common sizes are between 10 and 50-ft for grounds and 10 and 20-ft for jumpers and depend on work application.

3. Specify Your Clamp Style

- Clamps come in a pair, choose from the following options - C-clamps, duckbill clamps, flat clamps, ball socket clamps (grounds only), and clear barehand clamps (jumpers only)
- Based on the selected clamp, it will determine the ferrule attachment style on whether it is threaded or unthreaded

C-Type Clamp for Grounds, by Hubbell

MFR Part # PSC6003412

P/N 900703412

C-Type Clamp for Grounds, by Hubbell

MFR Part # C6002271

P/N 69296057

Duckbill-Type Clamp for Grounds, by Hubbell

MFR Part # C6000197

P/N 900060197

Barehand Clamp for Jumpers, by Salisbury

MFR Part # 2115

P/N 900002115

PRE-BUILT SETS

Most Common Assembled Ground Sets
