

YOUR FACTORY DIRECT SOURCE FOR SAFETY SOLUTIONS

Data alone doesn't create a safer fleet or reduce downtime--it's the insights you get from the data that make the difference. For more information on Altec Insights, reach out to Altec Fleet Services.

ALTEC INSIGHTS

TRUST YOUR EQUIPMENT
TO THE TEAM THAT BUILT IT

Altec Insights is a powerful tool for understanding equipment safety and performance. Next generation equipment with advanced control systems provides more data than ever before about how equipment is being used—but data alone is not enough.

- » Create configurable alerts for safety and performance events
- » Receive important context including severity, potential cause and recommendations
- » Access near real-time vehicle status information
- » View unit diagnostic trouble codes
- » Review detailed information in Altec Connect

- » Is it the right piece of equipment for the job?
- » Is the machine being used correctly and safely?
- » How can downtime be mitigated and prevented?

- » Know when safety systems are activated
- » See operator commands and their impact on unit loading
- » Identify opportunities for coaching operators

- » Notifications for equipment faults to reduce downtime
- » Help keep your fleet ready for work
- » Leverage Insight history to spec new equipment
