

OP-READY

**IMPROVE EQUIPMENT UPTIME
WITH ADVANCED INSIGHTS**

OP-READY

Op-Ready is a digital report that combines data from telematics and Altec equipment to identify assets that might be down. With this report, customers can address issues today to prevent downtime tomorrow.

IMPROVE UPTIME

- Find out about issues before they cause downtime
- Op-Ready tracks both chassis and unit data to monitor the entire asset
- Filter out the noise to only deliver what you need to know

MAXIMIZE VALUE OF ASSETS

- Track JEMS battery health and know when charging is needed
- Automatic notification of OEM notices, recalls and alerts
- Monitor an entire connected fleet in a single report

REMOTE EMAIL NOTIFICATION

- Receive a summary report of an entire fleet, a subgroup of assets or an individual unit
- Customize who receives the reports and when
- Subscription options available

EASY TO USE

- Translates diagnostic trouble codes into easy to understand and actionable insights
- No hardware or software to install on any existing connected equipment
- Report set-up in under an hour

INNOVATE WITH PURPOSE

Technology has changed a lot over the last 95 years, but Altec's approach to it remains the same—innovate with purpose to improve the experience of our customers. Operational readiness of equipment has never been more important and Op-Ready is the next step in improving uptime by making sure the right people know what action is needed and when.
