

TRACKED AERIALS

DEDICATED

**PEOPLE,
PRODUCTS
& VALUES
YOU CAN
DEPEND ON**

For more than 95 years, Altec has been a company committed to excellence. Our industry-leading products consistently raise the bar through innovative product design, integrated safety features and continued dedication to total customer satisfaction. It's the relationship with our customers that drives our business and enables our success.

The history, tradition and culture of Altec are founded on our values:

- Customer first
- Enjoyment of work
- Family
- Financial stability
- Integrity
- People are our greatest strength
- Quality
- Spiritual development
- Teamwork

Headquartered in Birmingham, AL, Altec promotes an environment built on teamwork where people are our greatest strength and our customer is the main focus. Altec is a leading equipment and service provider for the electric utility, telecommunications, contractor and tree care markets. The company provides products and services in more than 100 countries throughout the world.

ALTEC | [ALTEC.COM/TEUPEN](https://www.altec.com/teupen)

Altec Teupen backyard aerials are engineered to deliver exceptional safety, reliability and efficiency for tree care, construction and facilities maintenance applications. These tracked aerials provide easy operation, compact design and superior stability, ensuring safe and efficient work at height in a wide range of models.

Transport Solution Options

Several Altec Teupen units are able to be paired with purpose-built piggyback chassis to create a compact solution for moving and using your backyard lift. These chassis are custom tailored to integrate with your machine and do not require a commercial drivers license.

Unmatched Access and Agility

The industry-leading solution for small set-up areas, all models are equipped with stable platforms and can fit through a standard single or double doorway. With units backed by Altec's nationwide service network and available to purchase or rent, our team is ready to assist with finding the perfect Altec Teupen equipment for your fleet.

SIMPLE DESIGN

Each machine is crafted with an intuitive design and available in a wide range of working heights for different applications. Working platforms have compact dimensions that are perfect for tight spaces and backyards.

TECHNICAL INNOVATION

Machines are available with high-quality electric engines for indoor applications and efficient diesel engines for outdoor use. Altec Teupen equipment offers optimized stability without compromising compactness.

VERSATILE APPLICATIONS

Altec Teupen equipment is built with a functional crawler chassis, enabling precise maneuvering on a wide variety of floors. The abrasion-resistant rubber tracks protect the ground, and the stable outrigger system guarantees a safe operation.

SAFE AND RELIABLE

Altec Teupen prioritizes operator safety above all else. All units feature a computer-monitored safety and stability system and operate in narrow span areas automatically, ensuring operator safety in narrow job sites regardless of setup.

SAFETY AND TRAINING

Your fleet is only as safe as the crew that operates it. Protect them and yourself with quality, customized training from Altec. Our Sentry program offers safety training for aerials, as well as certification for cranes and digger derricks through NCCCO. All programs are OSHA/ANSI compliant and aid in the fulfillment of employer training requirements. Many programs offer both operator and train-the-trainer formats, with classroom and computer-based courses available.

altec.com/safety

TRUST YOUR EQUIPMENT TRAINING TO THE TEAM THAT BUILT IT.

Altec Sentry offers training on insulating and non-insulating aerials, digger derricks and cranes.

AVAILABLE INVENTORY

It is now easier than ever for customers to directly access detailed specifications and pictures for a portion of our available new and used in-stock inventory. Customers can easily narrow their results to fit their specific needs by using a filter to select application, working height, chassis model, year and many other options.

altec.com/inventory

When you purchase from Altec, you invest in a relationship that spans the life of your equipment. Altec Service Group backs this promise with the most comprehensive service and support in the industry, with service centers located throughout the United States and Canada and an extensive fleet of mobile service vehicles and technicians nationwide. Visit us online to find a location or technician near you.
