Our proprietary cleaning system is a critical component in assuring unprecedented bonding of the epoxy primer to the steel. At a minimum of +130°F, our hot alkaline cleaning solution removes all contaminants through total immersion of the body and results in an exceptionally clean surface.

PRE-TREATMENT AND ELECTROCOATING PAINT AND RINSE

The pre-treatment regimen in the Altec electrocoating system consists of a nine stage cleaning and pre-treatment process plus E-Coat followed by 2 post rinses. Truck bodies and auxiliary parts are targeted for 30 minutes after dehydration and bake time in the overhead cure oven before entering a cooldown zone.

PRE-TREATMENT STAGES

1. Alkaline Cleaner
2. Water Rinse
3. Alkaline Cleaner
4. Water Rinse
5. Titanium-Based Rinse and Conditioner
6. Zinc Phosphate
7. Rinse
8. Non-Chrome Seal
9. Reverse Osmosis Water Rinse

Unique Environmentally Friendly-Rinse:

After the primer application, any paint particles that haven't been electrically charged and applied to the surface are rinsed off and collected to be used in the next paint application.

And unlike many of our competitors, our bodies are top coated before they leave the plant, preventing the degradation of the E-Coat from direct exposure to the sun and harmful ultraviolet rays.

The bodies are baked at 350°F to thoroughly cross link and cure the E-Coat.

We also offer undercoat, powder coat and liquid top coat.

STEEL SERVICE BODIES HEAVY DUTY, BUILT TO LAST

BODY BUILDING SINCE 1929

Altec has been building truck bodies for more than 85 years, and offers the most innovative and dependable bodies in the industry. Altec bodies are built using advanced engineering, technology and state-of-the-art manufacturing processes. And, unlike the competition, Altec Bodies can be designed to your exact specifications.

**6-Year
Limited
Warranty**

Dear Customer,

At Altec, we appreciate your business and will work hard to earn it! Altec offers the total value of industry-leading products paired with a complete range of services. From bucket trucks to boom truck cranes, to supplies and service, Altec can provide a solution for all of your job needs.

We believe in 100% customer satisfaction. With that in mind, our sales team strives to provide solutions tailored to your specific work needs – whether it is a brand-new model or a tried-and-true piece of equipment, our sales team will work with you to find the right product for your business.

If you would like to learn more about how Altec can help you, give us a call at 1 (800)-958-2555. You can also connect with us on social or sign up for our newsletter on Altec.com

We hope to hear from you soon.

Thanks,
Altec Sales Team

“Throughout our long history, Altec has remained committed to a firm set of beliefs and principles. For 90 years, these core values guide the manner in which we conduct our business on a daily basis, and help to provide the cornerstone of our corporate culture.”
